SKILLS

Programming:

C++ • C • Python

Web Development & Deployment:

HTML • CSS • React.js • Node.js

• Django • Github • Express • MongoDB

• PostgreSQL • Heroku • Vercel • MySQL

COURSEWORK

Computer Programming

Object Oriented Programming System

Data Structures & Algorithms

Operating Systems

Cloud Computing

Web Architecture System

Computer Networks

Machine Learning

EXPERIENCE

CODECHEF | WORKSHOP FACILITATOR INTERN | MAY 2018 - JUNE 2018

- Codechef is a online competitive programming platform
- I successfully played my role as a workshop facilitator for School students which aimed at introducing them with computer programming
- Introduced school students with problem solving algorithms and applications of programming in real world

PROSPERITY JUNCTION | WEB DEVELOPER INTERN | JUNE 2020 - JULY 2020

- Prosperity Junction is a Financial Training Institution for Professionals has its aim to bring Prosperity in the community by Spreading Knowledge Wisdom
- I successfully played my role as a front-end developer for PROSPERITY JUNCTION
- Created front-end of a website to conduct online exams
- Technology used : ReactJs

PROJECTS

GUEST HOUSE BOOKING | WEB APP

Built using Django and MySQL. It provides a platform to book a room in Guest House. The booking of the is subject to availability of rooms.

RAILWAYS TICKETING SYSTEM | WEB APP

Built using Django and SQLite. It is a dummy website for reserving tickets in a train. One can cancel and check status using PNR. It also maintains a waiting list and confirms the ticket subject to availability. User verification and e-ticket is sent through email.

TWITTER SENTIMENT ANALYSIS | WEB APP

Built using Django and Tweepy(Twitter API). It gives the percentage of users' sentiments on a topic.

(More projects' details available on portfolio)
